

Shiver

George Benson

From the moment that I see you
Chills run down my spine
Your smile is mesmerizin'
And soothes me like sweet wine

With you is where it's warmer
I never want to leave
So come on girl, let's get closer
I want to breathe when you breathe

You make me shiver
Girl your love is such a sweet sensation
You make me shiver
Baby, when you're here with me it's fascination
You make me shiver

When we're dancing close together
Wrapped up in a bliss
My heart is racing and disobeying
The magic in your kiss

We share a special feeling
I hope the music never ends
New love takes on a new meaning
Girl, let's move across the floor again

You make me shiver
Girl, your love is such a sweet sensation
You make me shiver
Baby, when you're here with me it's fascination
You make me shiver

Come on take me, I'm ready for this ecstasy
I've been waitin' forever
Feels so real, better than a fantasy
When we're so close together

You make me shiver
Girl, you're love is such a sweet sensation
Sensation girl
You make me shiver
Baby, when you're here with me it's fascination

You make me shiver
Ho girl, your love is such a sweet sensation
You make me shiver
Baby, baby, when you're here with me it's fascination

You make me shiver
You make me shiver
Shiver, shiver, shiver baby, quiver, quiver baby
You make me shiver
You make me shiver girl
