

Show Me the Love

George Benson

It's been a while I missed your smile and those moments that we used to share baby.

I need to know it's not for show and the way you look is just not fair.

I know you trying to pretend getting closer to the end. It's just start all over again.

Show me the love that you gave. When I looked into your eyes. It's like a little piece of heaven in my soul.

Show me the love that we had. I'm remembering the night you came into my life now I need you to show me the love.

You're like the light shining bright. No one ever made me feel this way. No no...

We took a chance then we danced. And filled me with these words I say.

Suddenly you came along like the words without a song waiting for music for us to sing.

Show me the love that you give. When I'm lying next to you I can tell by the beat of your heart that it's true.

Show me the love that we had. I'm remembering the night you came into my life now I need you to show me the love.

Remember when all this was new I remember when you said "I do"
My dream came true.

Show me the love that you gave. When I looked into your eyes. It's like a little piece of heaven in my soul.

Show me the love that we had. I'm remembering the night you came into my life now I need you to show me the love.

I can tell by the beat of your heart that it's true.

Show me the love that we had. I'm remembering the night you came into my life now I need you to show me the love.
