Six Play

George Benson

Six Play, Six play

I tried to write it in calligraphy But the words wouldn't come to me Couldn't send it in a telegram Or sculpt it like Rodan If I could think the words across the sky Cuz when we touch I feel like I can fly I couldn't build another Taj Mahal But music says it all

Brown eyes, let my guitar gently groove you Like rain, falls down Surrender to the sound

Feel my six play Caress you in today Strum you like you are A mahogany guitar We mix the six play Flip it a million ways Spend your every fantasy Your desire's fulfilled by my song Makin love till the symphonic dawn Got a private show that's sure to floor ya My guitar is cryin for ya Stay Enjoy my six play

Six play, Six play

We could drift into a fantasy Two lovers walkin on a emerald sea Check the music, let it set your free Be the girl you wanna be Never felt the beat quite like this I never had a dance quite like this Never played guitar quite like this Aww baby

Brown eyes, let my guitar gently groove you Like rain, falls down Surrender to the sound

Feel my six play Caress you in today Strum you like you are A mahogany guitar We mix the six play Flip it a million ways Spend your every fantasy Your desire's fulfilled by my song Makin love till the symphonic dawn Got a private show that's sure to floor ya My guitar is cryin for ya Stay Enjoy my six play

Pull up a chair this is a private affair We can work it our GB gonna show you what its about There aint nothin better than us chillin out together With a song from my heart

Six play, Six play

Feel my six play Caress you in today Strum you like you are A mahogany guitar We mix the six play Flip it a million ways Spend your every fantasy Your desire's fulfilled by my song Makin love till the symphonic dawn Got a private show that's sure to floor ya My guitar is cryin for ya Stay Enjoy my six play
