

Strings of Love

George Benson

She signs her name on my guitar
Spanish kisses on my heart
We dance flamenco in the dark
On my strings of love

Thru the night i cried her name
To the pounding of the ring
Swept the way in passions flame
On my strings of love

(Hmm...)

Tender out the way she hunts my mind
She was only mine one night in time
Chasing after the dreams she've left behind
No one compares to how she shines

Though she's gone without a trace
I'm seeing visions of her face
Kisses by the fire place
We're on my strings of love

(Hmm...)

Tender out the way she hunts my mind
She was only mine one night in time
Chasing after the dreams she've left behind
No one compares to how she shines

She signs her name on my guitar
Spanish kisses on my heart
We dance flamenco in the dark
We're on my strings of love

On my strings of love
We're on my strings of love
We're on my strings of love
