

Cheer Down

George Harrison

I can see by your grin
That youre trembling within
Its all over town, cheer down
And the smile on your face
Is sometimes out of place
Dont mind, no frowns, cheer down.

If your hair should fall
If your shares should crash
Youll get by even without getting a rash

Theres no tears to be shed
Im gonna love you instead
I want you around, cheer down.

When your teeth drop out
Youll get by even without taking a bite

If your dog should be dead
Im gonna love you instead
The world loves a clown, cheer down.
I want you around, cheer down
