George Harrison

Bust my back on the levy - broke my strings on the bbc  
Found my chops on eel pie island - paid my dues at the marquee  
Slagged off by the n.m.e. - lost my stash and my virginity  
In this cockamamie business

Got my face on ed sullivan - broke my heart on the soul train  
Introduced to bad company - lost cells down at brain drain  
And before I could mend - lost the missus, missed the girlfriend  
In this cockamamie business

Now we like to air condition - though the air has no ozone ring  
Still theyre chopping down the forest for mcdonalds and the burger king  
Eating cows with such persistance - doesnt offer much resistance

There are too many things - stressing out the nervous system  
Girls you used to know - fellas that may have kissedem  
Some got rabies - some got fleas - some got incurable diseases

Everybodys after as many points as they can get  
As long as its not them that has to pay  
No one really minds the debt  
5-star actors, tax inspectors, film producers and directors  
With their cockamamie business

Well you do what you can - cant do much more than that  
(no you cant do what he just said)  
Some days youre pretty sharp - on other days you feel half dead  
(while you make your daily bread)  
Didnt want to be a star - wanted just to play guitar
