

Mystical One

George Harrison

They say Im not what I used to be
All the same
Im happier than a willow tree
Shine or rain sitting here by a stream
(mmm) theres nothing Id rather feel
In this world
You and your sweet serenity
Rocking me
Melting my heart away

I know something so dear to me
Beyond words
Beautiful feeling in my soul
Sounds Ive heard
Like humming birds in a dream
(mmm) that mystical one I knew
Is returned
Lulling me with those raincloud eyes
Taking me
Melting my heart away

I am yes I am
I know what I feel
You came in my life
Made me more real

I know whatever we may have been
In past times
Has sorted the truth out from the rest
Win or lose
I always knew youd be there
(mmm) you answer my deepest prayer
In a song
Shimmering slowhand flowing clear
Moving me
Melting my heart away

I am yes I am
I know what I feel
You came in my life
Made me more real

(mmm) that mystical one I knew
Is returned
Lulling me with those raincloud eyes
Taking me
Melting my heart away
