This Is Love

George Harrison

Precious words drift away from their meaning And the sun melts the chill from our lives Helping us all to remember what we came here for This is love, this is la la la-la love This is love, this is la la la-la love

Little things that will change you forever May appear from way out of the blue Making fools of evrybody who dont understand This is love, this is la la la-la love This is love, this is la la la-la love

This is love, this is love This is love, this is la la la-la love

Since our problems have been our own creation They also can be overcome
When we use the power provided free to everyone
This is love, this is la la la-la love
This is love, this is la la la-la love

This is love, this is la la la-la love
This is love, this is la la la-la love
Oh, this is love, this is la la la-la love
This is love, this is la la la-la love (repeat and fade)
