

Your Love Is Forever

George Harrison

Sublime in the summertime, warm and lazy . . .
These are perfect days like heavens about here,
But unlike summer came and went -
Your love is forever,
I feel it and my heart knows
That we share it together.

Resigned to the wintertimes cold and dreary
Peering into fire flames, burning I know
That unlike winter came and went
Your love is forever
I feel it and my heart knows
That we share it together

I feel it and my heart knows youre the one
The guiding light in all your love shines on
The only lover worth it all
Your love is forever.
