

## Half Over You

George Jones

I've seen your body and I've sailed to this heart  
Now I'm somewhere in between  
I believe that it's over but sometimes I'm still blue  
There's no place so lonely being half over you.

Don't feel much like climbin' 'cause I don't want to fall  
Here in the memory I don't feel much at all  
I've almost accepted the fact that we're through  
There's no place so lonely being half over you.

(Instrumental)

I wasn't this bad off when first you were gone  
'Cause misery kept me company  
And then I remember the heights we've been to  
There's no place so lonely being half over you.

Don't feel much like climbin' 'cause I don't want to fall  
Here in the memory I don't feel much at all  
I've almost accepted the fact that we're through  
There's no place so lonely being half over you.

No, there's no place so lonely being half over you...
