

I Can't Get Used To Being Lonely

George Jones

I've got to get used to being lonely
And get used to knowin', darling, that you're gone
'Cause how can I prepare myself without you
When I can't get used to being all alone.

I got to get used to being lonely
And say this is the last day of the year
'Cause how can I look forward to tomorrow
When I can't get used to knowing I've lost you.

For things to change I must help to change them
'Cause on my own I don't have faith in me
But loneliness is all I have without you
'Cause I can't get used to being this lonely.

Yes, loneliness is all I have without you
'Cause I can't get used to being this lonely...
