## I Can't Get Used To Being Lonely

## **George Jones**

I've got to get used to being lonely And get used to knowin', darling, that you're gone 'Cause how can I prepare myself without you When I can't get used to being all alone.

I got to get used to being lonely And say this is the last day of the year 'Cause how can I look forward to tomorrow When I can't get used to knowing I've lost you.

For things to change I must help to change them 'Cause on my own I don't have faith in me But loneliness is all I have without you 'Cause I can't get used to being this lonely.

Yes, loneliness is all I have without you 'Cause I can't get used to being this lonely...
