

# One Hell of a Song

George Jones

They say if you look long enough you can find  
Some good where there's bad, well, believe me I've tried  
'Cause after you left me I had lots of time  
But the only good thing I could find.

Is it sure makes one hell of a song  
About hurting and going crazy and treating me wrong  
There's nothing good about you being gone  
But it sure makes one hell of a song.

You know I still look for you that keep hanging on  
And even though all the reason I once had are gone  
All that's left now is a heartache and an old guitar to hold  
(Sang)  
It's a small consolation I know.

But it sure makes one hell of a song  
About hurting, going crazy and treating me wrong  
There's nothing good about you being gone  
But it sure makes one hell of a song.

It sure makes one hell of a song...
