

# She's Lonesome Again

George Jones

Look out heart I can tell you have weaken  
For I feel those heartaches began  
She's come back and I don't know what has brought her  
She don't love me she's just lonesome again.

For a while I know that I'll be happy  
Anmd that's all that matters within  
Though I love her I know I can't hold her  
But she'll come back when she's lonesome again.

Just like always I'm waiting here for her  
Yes, it's true I always have been  
Yes, I love her but I know I'll be sorry  
She don't love me she's lonesome again.

She don't love me she's just lonesome again.  
But she'll come back when she's lonesome again.
