

Until I Remember You're Gone

George Jones

From day to day I tell my friends I'm happy
And tell them 'bout the heartache I've outgrown
The nights I spend without you never hurt me
Until I remember you're gone

The times you said you loved me are forgotten
The endless days no longer seem so long
Long as still I come and I don't miss you
Until I remember you're gone

I know there's no way to forget you
And lying to myself I know is wrong
I know that each dawn will find me living
Another day of living alone

When I sit down the empty chair beside me
Never makes me feel that I'm alone
At night your mem'ry never finds me cryin'
Until I remember you're gone

At night your mem'ry never finds me cryin'
Until I remember you're gone
