

We Sure Make Good Love

George Jones

We never will go down in history
As the old American family
The house needs painting and the ceiling leaks
But you understand, I'm no handy man
I won't be noted for my fine cuisine
Unless you're into burned bacon and beans
Domestic life has never been my thing
But we me and you, there's one thing we can do

We sure make good love
That's more than enough
It makes up for what we mess up
We sure make good love

There was a time that I mended your pants
They left you hanging by a thread at the dance
No one can say this is a boring romance
But you show up that work, in your pink undershirt
Remember when I tried to fix the old car? (that's right!)
I blew the engine and it burned in the yard
There was that day when I was mowing the grass
I slung a big rock, and hit you in the.....back

We sure make good love
That's more than enough
It makes up for what we mess up
We sure make good love

We sure make good love
That's more than enough
It makes up for what we mess up
We sure make good love
