

Baby Your Baby

George Strait

All you know-it-all lovers
Better heed some advice
If you're bad to your baby
You better think twice
Love don't come easy, love ain't blind.

You've got to show her you love her
Mornin' and night
Be there for her just to make things right
Make her believe
Till there ain't a doubt in her mind.

Better baby your baby
With a love that's strong
Hold her and tell her
You'll never do wrong
Better baby your baby
'Cause if you don't
One day your baby'll be gone

Don't let her get lonely
Don't make her cry
Don't take her for granted
Don't tell her a lie
Bring her red roses
When she's blue

Give her the best of
What you've got to give
You'll be together
As long as you live
Better baby your baby
And she'll baby you

Better baby your baby
With a love that's strong
Hold her and tell her
You'll never do wrong
Better baby your baby
'Cause if you don't
One day your baby'll be gone
