

Cow Town

George Strait

C'mon along and we'll go down
To a place in Texas called Cow Town

You'll never meet a stranger there
Ev'rybody knows if you're in town

They'll meet you with a smile and a
'Howdy, How you all' and just a little while
You'll get that Texas drawl
The hats are wide and the boots are brown
You'll just love this place called Cow Town

No matter where I may wonder
No matter where I may roam
There's a place way down yonder
I'm goin there and make it my home

C'mon along and we'll go down
To a place in Texas called Cow Town

You'll never meet a stranger there
Ev'rybody knows if you're in town

They'll meet you with a smile and a
'Howdy, How you all' and just a little while
You'll get that Texas drawl
The hats are wide and the boots are brown
You'll just love this place called Cow Town

You'll just love this place called Cow Town
