

Go On

George Strait

I'm so sorry, I keep interrupting
What were you gonna say?
You caught him cheatin'
I don't blame you for walkin' away
I know where you're comin' from
It sounds like where I've been
Oh, there I go interrupting your story once again

Go on
Go on
You were sayin' how a fool
Can only fool you so long
It's true
It's so true
When they do you like that
What else you can do but go on

Our conversation won't change nothin'
But it's sure nice to talk
With somebody who's been cut out
Of the same ol' cloth
You know how you said happiness
Can't be found lookin' back
If you don't mind maybe we can
Talk a little more about that

Go on
Go on
You were sayin' this is better than
Sittin' at home
It's true
It's so true
When they do you like that
What else can you do but go on-

Even when you see
No reason to
Don't wait to live life 'cause it
Won't wait for you

Go on
Please go on
You were sayin' what don't kill us
Only makes us strong
It's true
That's so true
When they do you like that
What else can you do
But go on
On... and on...
