

I'd Like to Have That One Back

George Strait

Heard somebody speak her name
They said she was still looking fine
I could feel that same old flame
I once felt when she was mine
Always thought that I was missing something
But I found out much too late
There'll never be another who loved me that way

I'd like to have that one back
I've never known someone so true
And a love that's pure and sweet
Is what a man should never lose
And if my lips had said I'm sorry
She might have stopped right in her tracks
Now I find my poor heart saying
I'd like to have that one back

I can almost see her standing there
Tears rolling down her face
As she packed away her memories
In that old worn out suit case
If I'd only known then what I know now
I'd never open that door
Oh they just don't make hearts like her's any more

I'd like to have that one back
I've never known someone so true
And a love that's pure and sweet
Is what a man should never lose
And if my lips had said I'm sorry
She might have stopped right in her tracks
Now I find my poor heart saying
I'd like to have that one back

I wouldn't here my poor heart saying
I'd like to have that one back
I wouldn't here my poor heart saying
I'd like to have that one back
