

Is It Already Time

George Strait

The years have been so good to you and I my friend
They brought us to the Autumn wind and left the tears behind
And who'd have dreamed that love could grow so endlessly
And you'd have meant so much to me, is it already time?

And I will always love you so
We'll hold each other close until it's time to go
And we believed we had forever on our side
Is it already time

And I will always love you so
We'll hold each other close until it's time to go
And we believed we had forever on our side
Is it already time

And we believed we had forever on our side
Is it already time?
