Nobody Has to Get Hurt

George Strait

As the sun sets and you let go
And my dreams go that way too
And I watch the silhouettes flow out of clear view

We can do this thing right
Fix what went wrong
Really make this work
Turn around real slow
Walk straight back to me
Nobody has to get hurt

We can learn from my mistakes now
I don't ask you to forget
But forgive my good intentions and where they went

We can do this thing right
Fix what went wrong
Really make this work
Turn around real slow
Walk straight back to me
Nobody has to get hurt
