

# That's My Kind of Woman

George Strait

She can drive a truck and rope and ride  
She feels right at home right by my side  
That's my kind of woman  
That's my cup of tea  
That's my kind of woman  
The girl I want for me

She's got a pair of boots taht she just loves  
And like me, likes Gus from Lonesome Dove  
That's my kind of woman  
That's my cup of tea  
That's my kind of woman  
The one I want for me

After all I've seen and all I've done  
I know somewhere there is someone  
Who'll look my way and say  
I want that one  
That's my kind of woman  
That's me to a "T"

No matter what she wears she turns my head  
On rainy days, I can't pry her out of bed  
Lord, I know the order's pretty tall  
But find me and that'll be all

That's my kind of woman  
That's me to a "T"  
That's my kind of woman  
The girl I want for me

After all I've seen and all I've done  
I know somewhere there is someone  
Who'll look my way and say  
I want that one  
That's my kind of woman  
That's me to a "T"

That's my kind of woman  
The girl I want for me  
She can drive a truck and rope and ride
