

You Still Get to Me

George Strait

I feel the same way that I always have
You still get to me, like you used to do
I cant complain, dear, you make my life complete
After all this time, honey, its still true

I want to thank you over and over
Im gonna love you through and through
If you changed, dear, you just got better
You still get to me like you used to do

When Im down, dear, theres no way I can hide
You still get to me like you used to do
And if I feel blue, your love is like a light
That you shine for me just to see me through

Im here to tell you over and over
I just love you cause youre you
If you changed, sweetheart, you just got better
You still get to me like you used to do
