

# You Sure Got This Ol' Redneck Feelin' Blue

George Strait

Oh, I recall some barroom brawls  
That I got myself into  
Just a stich or two  
Got me back together  
But what it takes  
To ease the ache  
That came with losing you  
I thought I was tough  
But goodbye is too much  
This healing is taking forever

Woman you sure got  
This old redneck feeling blue  
What's going on inside me  
I ain't used to going through  
This ol' country boys  
Hillbilly heart is breaking in two  
Yea, you sure got this  
Old redneck feeling blue

I've never seen anything  
Hit me quite like this  
You know the pain and loneliness  
It keeps hanging with me  
Oh, this good time Joe  
He took quite a blow  
Oh, why'd you call it quits  
It'll take some time  
To mend my mind  
And put me out of my misery

Woman you sure got  
This old redneck feeling blue  
What's going on inside me  
I ain't used to going through  
This ol' country boys  
Hillbilly heart is breaking in two  
Yea, you sure got this  
Old redneck feeling blue

Woman, you sure left this  
Old redneck feelin blue
