

You Talk Too Much

George Thorogood

You talk too much, you talk too much
I can't believe the things that you say everyday
If you keep on talking baby
You know you're bound to drive me away

Now you get on the telephone with your girlfriend
Your conversation baby ain't got no end
Yakety-yakety-yakety-yak all the time
You keep on talking baby drive me out of my mind
You talk too much
I can't believe the things that you say everyday
If you keep on talking baby
You know you're bound to drive me away

Well I laid out in the afternoon I start to nappin'
You walk into the room with them jaws a-flappin'
You keep that motormouth moving morning, noon and night
You keep on talking baby make my head turn white
You talk too much
I can't believe the things that you say everyday
If you keep on talking baby
You know you're bound just to drive me away

I think you're trying to put me through some kind of test
I'm begging you baby won't you give it a rest
You talk about people that you don't even know
Keep it up baby I'm gonna pick up and blow
You talk too much
I can't believe the things that you say everyday
If you keep on talking baby
You know you're bound to drive me away

Don't get me wrong baby I don't mean to complain
But if you keep on talking you're gonna drive me insane
You keep on talking all around the clock
I'm begging you baby won't you please stop
You talk too much
I can't believe the things that you say everyday
If you keep on talking baby
You know you're bound to drive me away
