

# Life

George

It's another life  
I can't believe the things that I see  
Seems like paradise  
I walk behind  
You looking at me

My creation  
It's another life  
This sensation  
Is walking on hot ice

It's another life  
But you don't have to be what they say  
It's a different kind  
Of love running through you inside

My creation  
It's another life  
This sensation  
Is walking on hot ice

In your life  
Everything you feel in life  
Never try to turn your life  
Into something that you'll never sleep at night  
You'll run into alone  
Hot ice...

It's another night  
But I can sleepwalking into my mind  
Just another night  
But the time don't go anywhere

My creation  
It's another life  
This sensation  
Walking on hot ice

In your life  
Everything you feel in life  
Never try to turn your life  
Into something that you'll never sleep at night  
You'll run into alone  
Hot ice...
