

Release

George

Work through joy through work
The goddess of religion dogma and guilt
Poor me, start joyful destiny, respite, guilt-free passion
Grant fear of freedom, sympathy, God and myself, God and myself

To another place from respect, joyful girl, thank you

And I'm ready to release on another day
I'm ready to respect the day today
I'm ready to respect myself today
I'm ready to release

Self-image confidence troubled, comfortable blame, touching
Partake with grace, jealousy, wisdom, unabashed joy and me, you
, yum
Power transference to equality, letting go joy again
Loving do unto others as to yourself, thank you

And I'm ready to release on another day
I'm ready to respect the day today
I'm ready to respect myself today
I'm ready to release on another day
I'm ready to respect myself today
I'm ready to release

Male, female, innocent carefree, fate, honour and wrong
Success caressing a self-love, do to yourself as to others
Comfortable held release, comfortable held release...

And I'm ready to release on another day
I'm ready to respect the day today
I'm ready to respect myself today
I'm ready to release on another day
I'm ready to release myself today
I'm ready to release

Grant fear of freedom, sympathy, God and myself, God and myself

To another place from respect, joyful girl, thank you
