

Get On The Right Track Baby

Georgie Fame

Get on the right track, baby
Get on the right track, baby
Get on the right track, baby
Come on home and treat me wrong again

Get on the right track, baby
Get on the right track, baby
Get on the right track, baby
This time girl
Come right on home, treat me wrong again

Don't you know that I love you baby
And I cry both night and day
But I'm telling you just one more time
Come back even if you don't stay

Get on the right track, baby
Get on the right track, baby
Get on the right track, baby
Better look out girl
Come right on home, treat me wrong again
What I want

Don't you know that I love you baby
But yet you blow my heart in two
Please, please come back home
I wanna spend my life with you

Get on the right track
That's what I want
Get on the right track
That's what I say
Get on the right track
You better look out girl
Come on home, treat me wrong one more time

You better believe that I love you baby
Don't you know you broke my heart in two
Please, please, please, please come back home
I'm feeling low down and blue

Get on the right track
What'd I say
Get on the right track
That's what I say
Get on the right track
This time girl
Come right on home babe
Why don't you treat me wrong
You better look out and come on, come on,
Come on home and treat me wrong again
