

# Can You Handle It

Gerald Levert

See I wanna give you everything  
I wanna love you show no shame  
I want you to know I belong to you  
See champagne and candle lights  
Breakfast in bed would be alright  
Baby there's nothing that I wouldn't do for you

I got a lot of love to give  
And I wanna give it to you  
All I wanna know is can you handle it Baby  
Girl I swear I treat you right  
Morning, afternoon and into the night  
All I wanna know is can you handle it Baby

I know a lot of guys call on you  
But they could never love you the way that I do  
Would you give me the chance

When you're serious just call me  
We'll make love constantly  
Are you ready for a true romance

If you want something real  
I swear I know you're gonna like  
The way I make you feel  
I'll give you good love and I'll never quit  
All I wanna know is can you handle it Baby
