

Funny

Gerald Levert

It's gonna be one of them days
I can feel it

On a day like today
I got out of bed, upped and went my way
Tryin' to find some peace within
But here ain't no rest for a weary man

Everything seemed to get me down
Looking everywhere just to find a smile
Then the phone rings and an angel sings
"Hello, hello"

And it's funny you should call today
It's been too long, thought you just moved on
And it's funny you should call today
You always found a way to make my day

Girl, tell me how is your family
I can't believe that you thought of me, baby
Baby, my heart is beating fast
You don't know how much I missed our past, yeah

Seen a friend of mine a month or so
She said, you're doin' well, you've got it going on
Then the phone rings and an angel sings
"Hello"

And it's funny you should call today
It's been too long, thought you just moved on
And it's funny you should call today
You always found a way to make my day

Baby, it's like you know when I was down and out, yeah
Like in the past when you would bail me out, baby, baby
And I just want to wanna thank you, girl
Just to hear your voice, girl, it changed my world

And it's funny you should call today
It's been too long, thought you just moved on
And it's funny you should call today
You always found a way to make my day

Ain't it funny 'cause you should call today
I think 'bout it all babe, it's yeah, yeah
And it's funny you should call today
We can just be friends, babe, ain't got to be your man
No way, no way

Said, it's funny, funny you should call me
'Cause I've been thinking 'bout it, babe
I've been thinking 'bout it, I've been thinking about it, baby
And it's funny, you should call me
