

# I Don't Get Down Like That

Gerald Levert

Take Care of your body  
Your mind and your soul  
To take time to give you  
The attention you want

No special G items  
Love and words on a cell  
Little things you be needing  
Girl, it shows that we gotta nag never

Never never that, never never that  
I wouldn't do baby, never never that, no

Do you like it, do, no, oh, oh  
See I don't get down like that  
Give you all those private things, baby

See candlelight dinners  
And hot bubble baths  
Relieving your tension  
Massaging your back

Girl, how did your day go?  
We talk about then  
A little time that we need  
Girl, you'll never go back

Never never that, never never that  
Never, never never that, no

Do you like it, do, no, oh, oh  
I don't get down like that

Do you like it, do, no, oh, oh  
See I don't get down like that  
You'd be loved the way you're Supposed to be

If I was your man, you was my girl  
We would be loving 'round the world  
And you'd live in the life of luxury  
One day go by without you next to me

Love without no lemony, nothing at all  
Like an elevator girl, I'll come when you call  
Up, down, in and out  
From the favorite spot love it to the ground, ground

Do you like it, do, no, oh, oh  
I don't get down like that

Do you like it, do, no, oh, oh  
See I don't get down like that

Do you like it, do, no, oh, oh  
I don't get down like that

Do you like it, do, no, oh, oh

See I don't get down like that

Do you like it, do, no, oh, oh  
I don't get down like that

Do you like it, do, no, oh, oh  
See I don't get down like that
