

I Wanna Be Bad

Gerald Levert

Her night lights up
They're playing our favorite slow jam
I tip the D.J. say play it again Sam
'Cause I know that you know that I wanna
do you
Rub you down with hot oils into you
I call it love you call it a sin
But when I'm finished you say do it again
Girl, you like it I ain't mad
That's because I just wanna be bad

I'm tired of playing games
You always say the same old things
Come on let's be for real
You know how good I'll make you feel
Come on Baby

I wanna be bad tonight
Let's do it Baby
Be naughty so naughty
I wanna be bad tonight
Oh let's be naughty

I'll kiss you from head to toe
I'll show you things you never been shown
Just come and stay awhile
I swear I'll have you wearing a smile
Come on Baby

I wanna keep you satisfied
I wanna make you feel good
No matter how hard, how hard you try

Girl give me this chance
I wanna show you what it feels like
To have a true romance

I wanna be bad tonight
Come on come on Baby
Be naughty so naughty

Champagne whatever you desire
Lie on the floor I'll put logs on the fire
I'll break out strawberries and whip cream
Can you imagine it like a dream

So put on your sexy lace and sweet perfume
And I'll put on my certain Fruit of the Loom
So baby be ready when I come to your hotel
No more Mr. Nice Guy it's time to be bad

I wanna be bad tonight
Be naughty so naughty
I wanna be bad tonight your ecstasy
