

Nice And Wet

Gerald Levert

Prepare yourself turn off the phone
And get in position 'cause baby it's on
And it's on it's on

Ain't nothing wrong
With being soaking wet
I know you're ready
For the real deal

It's a full moon and love is in the air
Champagne is chilling strawberry
bubble bath
I go out of my way just to turn you on
Forget about the tv and throw away the damn phone

My silk pajamas the ones you really like
Are pressed and ready 'cause tonight is
your night
So wear that perfume and that black
negligee
you don't have to wear nothing just
have it your way

A night you won't forget
come on gonna keep it nice & wet
A night you won't forget
Gonna keep it nice & wet

Ain't nothing wrong
With getting soaking wet
I know you're ready
For the real deal

I know all the switches that turn you on
So tonight is the night I'm going to flock
them
All night long my
body's oh so hot
You got me in a sweat
and tonight I promise
you
I'll keep it nice & wet

I got feelings inside
I really want to give
I won't be too hard
I know that you're
sensitive

Girl sit back and relax
And I'll take you there
Girl you got to get
loose
Why don't you let down
your hair
