Rock Me

Gerald Levert

Girl, who you been talkin' to Tell me whose been lyin' to you They say I'm cheatin', doin' this and that Why you frontin', girl Now you know it ain't like that

You know I cherish our relationship In the middle of the night Get up and buy a bag of chips Just to keep you satisfied If I'm doin' wrong Lord knows I'm tryin'

Tell me what it is, tell me what can I do to make you understand? I'm crazy 'bout you, I can't do without you You got me whipped and I slipped, I must be trippin' I'm so proud to say, I'm your man

Girl, I absolutely, positively Girl, I love you, please don't doubt me Take me in your arms and rock me all nite long

Absolutely, positively Girl, I love you please don't doubt me Take me in your arms and rock me all nite long

Tell me what you want me to do I spent my whole life lookin' for you So I consider you forever mine Those who don't like it Kiss where the sun don't shine

Girl, I'll be there through the thick and thin When you can't even find your so called friends So let me be the one you talk to Whenever problem we can solve 'em Between me and you, baby

Tell me what it is, tell me what can I do to make you understand? I'm crazy 'bout you, I can't do without you You got me whipped and I slipped, I must be trippin' I'm so proud to say, I'm your man

Absolutely, positively Girl, I love you, please don't doubt me Take me in your arms and rock me all nite long

Absolutely, positively Girl, I love you, please don't doubt me Take me in your arms and rock me all nite long

Absolutely, positively Girl, I love you, please don't doubt me Take me in your arms and rock me all nite long

Absolutely, positively Girl, I love you, please don't doubt me Take me in your arms and rock me all nite long Rock me, rock me all nite long, baby Rock me, rock me all nite long, baby

Absolutely, positively Girl, I love you, please don't doubt me Take me in your arms and rock me all nite long

Absolutely, positively Girl, I love you, please don't doubt me Take me in your arms and rock me all nite long
