That's the Way I Feel About You

Gerald Levert

You know life is funny When you look at it everybody wants love And everybody's afraid of love I'm a firm believer that If you get anything out of love You got to put up with the tugs and strive, yeah You almost pushed our love a little bit too far We forgot to remember how blessed we are And that girl over there Telling you what she sees You don't have to worry She ain't gonna get next to me You told me think it over And I thought it over and over and over Over and over and over You see, 'cause That's the way I feel about you I know you've been hurt So have many of us too That's a sacrifice Life is gonna put you though Trust in me like I trust in you Sometimes I look at you, baby And wonder if God sent you here Don't take my love as a sign of a weakness Check into the situation, it gets a little deeper You told me to think it over Did you think it over? And I thought it over and over And over and over again That's the way I feel about you Please, please, please answer to love If it ever come knocking at your door 'Cause what's out there knocking, baby

I know you've been hurt So have many of us too But that's a sacrifice

The world don't get enough of, no, no

That life is gonna put you through

Don't take my love as a sign of a weakness Check into the situation It gets a little deeper and deeper You told me me to think it over, baby And I thought it over, you think it over, baby

That's the way I feel about you That's the way I feel about you
