

What Cha Think About That

Gerald Levert

Thinking about you babe
Life ain't been right without you baby, oh no no no
Think I'll call you babe, pick up the phone
And it rang and it rang and it rang

Did I wake you babe?
I just called to say how much I miss you babe
And I'm on the I wanna kiss you baby
Never felt my love come down like this, oh baby
Tell me what cha think

Although time has passed
But if it was true love it will forever last
Stupid is as stupid does and You don't miss a good thing 'til it all goes bad
Tell me what cha think

Lately I've been thinking about you
Hoping maybe you've been thinking about me too
And if you feel like I do
Let's get together 'bout two
What cha think about, tell me what cha think about that

At this m-m-moment
If it don't work for you, well baby girl I can
Don't make me break down and get no sympathy
(I cry baby!)
only got one life to live, so let's stick together
Tell me what cha think

Lately I've been thinking about you
Hoping maybe you've been thinking about me too
And if you feel like I do
Let's get together 'bout two
What cha think about, tell me what cha think about

Lately I've been thinking about you
Hoping maybe you've been thinking about me too
And if you feel like I do
Let's get together 'bout two
What cha think about, tell me what cha think about that

Thoughts of you consume me
It ain't easy living with the memory
You're my prized possession
My one obsession baby

Lately I've been thinking about you
Hoping you'll feel same way too
Feel like I do, together 'bout two
What cha think about that

Remember the very first day, remember the very first love
Remember the very first kiss, we said we was in love, in love
Remember the very first time we made love and you were so shy
But it was so good we both of us cried

Why can't you tell me what cha think about
Tell me what cha think about
Tell me what cha think about that

Lately I've been thinking about you
Hoping maybe you've been thinking about me too
And if you feel like I do
Let's get together 'bout two
What cha think about, tell me what cha think about

Lately I've been thinking about you
Hoping maybe you've been thinking about me too
And if you feel like I do
Let's get together 'bout two
What cha think about, tell me what cha think about

Lately I've been thinking about you
Hoping maybe you've been thinking about me too
And if you feel like I do
