

Don't Get Any Better

Geri Halliwell

Take a road where imperfection's
Never where you feel the pinch around the middle
Makes you lose the beat
And then you're stepping out of time

Underneath my clothes there lies a riddle
Fix my tits, my ass or live a little
Got me thinking twice
A girl's allowed to change her mind

What I got is what I need
And I know it's good enough for me
And what I got, take it from me
Don't get any better
This is it, this is me
I'm exactly where I wanna be
This is life, take it from me
It don't get any better

Under pressure, older, free, and single
If you want to fit, you better mingle
Don't go losing sleep
You know it's gonna be alright

What I got is what I need
And I know it's good enough for me
And what I got, take it from me
Don't get any better
This is it, this is me
I'm exactly where I wanna be
This is life, take it from me
It don't get any better

It don't get any better
I'm flying for free
It don't get any better
Ah baby take it from me

What I got is what I need
And I know it's good enough for me
And what I got, take it from me
Don't get any better
This is it, this is me
I'm exactly where I wanna be
This is life, take it from me
It don't get any better

What I got is what I need (what I got, what I need)
And I know it's good enough for me
And what I got, take it from me (what I got)
Don't get any better
This is it, this is me (this is it, this is me)
I'm exactly where I wanna be
