

Feels Like Sex

Geri Halliwell

Have you ever felt too hot to go to bed
Touched yourself instead and watched your body talk,
just let your body talk
Have you ever felt just too hungry for love
The more you get you find that its just not enough,
but you reslly cant
Give it up

All you people out there
Put your hands up in the air
Are you feeling you know what
or do you really care

If it feels like love
Then give it baby thats a rush
If it feels like pain, pain, pain, pain
Its really just the same
If the mood is rude
Then you got the right attitude
And ya better get down, you dont have to get underssed
Just because it feels like sex

Have you ever had a mind too dirty to read
Kinkyfreaks why dont you get down on your knees,
I'm gettind hard to please
Have you ever whipped love and left it to cry
Ask yourself the question,
does the cherry pie leave you satisfied

Turn out the light, so I can feel what your thinking
Do you think we'd get it passed the watershed
Lets take it slow, cos you know
I know you know, sex is in your head

Baby I want you to know
Youre not the only one
Im on my way to sexual healing
Do you wanna come?
