

# Let Me Love You More

Geri Halliwell

It's when I look at you  
That I'm suddenly alive  
And it all makes sense

When it feels so beautiful  
Completely natural  
Well it's love I guess

This is the closest thing  
I've imagined it to be  
With one kiss, one touch, I'm in heaven  
We can make it last baby

Feel my love tonight  
Knowing it's not goodbye  
Leaving my heart at the door (heart at the door)  
Keep it warm and true  
Giving it all to you  
I'm coming back for more  
So let me love you more

It's when you look at me  
That I feel like I'm at home  
And it all works out

It's my own miracle  
So free and wonderful  
It's what it's all about

This is the closest thing  
I've imagined it to be  
With one kiss, one touch, I'm in heaven  
We can make it last baby

Feel my love tonight  
Knowing it's not goodbye  
Leaving my heart at the door (heart at the door)  
Keep it warm and true  
Giving it all to you  
I'm coming back for more  
So let me love you more

Feel my love tonight  
Knowing it's not goodbye  
Leaving my heart at the door (heart at the door)  
Keep it warm and true  
Giving it all to you  
I'm coming back for more

Why is it so confusing  
I always thought  
I couldn't love you anymore than I do  
But I do

Feel my love tonight  
Knowing it's not goodbye  
Leaving my heart at the door (heart at the door)

Keep it warm and true  
Giving it all to you  
I'm coming back for more  
So let me love you more

Feel my love tonight  
Knowing it's not goodbye  
Leaving my heart at the door (heart at the door)  
Keep it warm and true  
Giving it all to you  
I'm coming back for more  
So let me love you more
