

# Surrender Your Groove

Geri Halliwell

Baby, I can feel your thunder  
Butterflies on your shoulder  
Don't cry, I'll show you what love is  
Sideways and under

Twist it just a little more  
Cos baby we are heading for paradise  
Soak it up and move it all  
Tell me are you ready  
Keep the beat rock steady  
Baby set your heart on the vine

Surrender your groove  
Surrender your heart  
Surrender the super love that you've got  
I'm making it better  
I'm keeping it pure, I guess  
My karma's off the hook

You light me up like a firefly  
I'm dancing out on the high wire  
Sweet thing drink me like a fine wine  
We're star-crossed and so sublime

Twist it just a little more  
Cos baby we are heading for paradise  
Soak it up and move it all  
Tell me are you ready  
Keep the beat rock steady  
Baby set your heart on the vine

Surrender your groove  
Surrender your heart  
Surrender the super love that you've got  
I'm making it better  
I'm keeping it pure  
I guess my karma's off the hook

Surrender your soul  
Surrender your mind  
Surrender electric baby come shine  
I'm taking you good  
I'm taking you bad  
I guess your star is rising now

I say a little prayer for you  
Breathing in time with you, for life

Surrender your groove  
Surrender your heart  
Surrender the super love that you've got  
I'm making it better  
I'm keeping it pure  
I guess my karma's off the hook

Surrender your soul  
Surrender your mind

Surrender electric baby come shine  
I'm taking you good  
I'm taking you bad  
I guess your star is rising now
