

# Very Slowly

Geri Halliwell

Tick, tock, the moonlight's hummin'  
My finger's on the button and my hormones' drummin'  
Slow down, we're moving too fast  
Better wait a minute, make the good times last

I've learned something 'bout livin'  
You don't get nothing if you don't stop givin'  
We both know that we got so much  
But there ain't no rush

Wanna love you slowly  
When you slide on down  
Wanna love you slowly  
Turn that body 'round

You won't be able to control me  
When your love slow down  
Wanna love you slowly, slowly  
Slowly, slowly, slowly, hold tight

Love is all I need  
I guess it's sweeter when it's more than just a tease  
Let me hold you close enough to stick  
Love is an illusion, let's play that trick

Slow hand moving down my back  
If you get a chance, you feel my heart attack  
Real love has never been a crime  
Wanna take my time

Wanna love you slowly  
When you slide on down  
Wanna love you slowly  
And turn that body 'round

You won't be able to control me  
When your love slow down  
Wanna love you slowly, slowly  
Slowly, slowly, slowly

Slowly  
Slowly, yeah  
If you get a chance you feel my heart attack

Real love has never been a crime  
Wanna take my time

Wanna love you slowly  
When you slide on down  
Wanna love you slowly  
And turn that body 'round

You won't be able to control me  
When your love slow down  
Wanna love you slowly, slowly  
Slowly, slowly, slowly, slowly

Slowly  
Slowly, yeah
