

## Another World

Gerry Rafferty

If there's a reason on earth to believe in me  
After all of those times we've been through  
If there's just one thing left that you see in me  
I will give my love to you  
I will give my love to you

If the sun don't shine bright on the two of us  
Now that we're so far apart  
There was something so real between the two of us  
I could see your loving heart  
I could see your loving heart (oh yeah)

Storm in the morning but still as the night  
We sever the moon that keeps crying  
Better to be in the moment or lost in the past  
Like a rainbow that's shining upon me

If we ever should meet in another world  
If we both come in out of the cold  
If we ever should meet in another life  
I will recognise your soul  
I will recognise your soul

(oh yes I would baby, recognise your soul yeah)  
(I would recognise, recognise your soul)
