

## Benediction

Gerry Rafferty

Genuflect, show respect,  
Don't forget it's a papal command  
Take your seat, all you need  
Is your rosary beads in your hand.

Time to start, cross your heart,  
Be a part of the mystical band  
Look at everybody trying to find their own place  
Looking for a heaven up high  
Working just to get into a state of grace  
We know we're gonna need it when we die.

Say your prayers, fill your fears  
Shed your tears, you're afraid of hell's fire  
As you sit there and pray  
You'll get carried away by the choir.

And the incense is sweet, takes you right off your feet  
And makes you higher  
Look at everybody trying to find their own place  
Looking for a heaven up high  
Working just to get into a state of grace  
We know we're gonna need it when we die.

Look at everybody trying to find their own place  
Looking for a heaven up high  
Working just to get into a state of grace  
We know we're gonna need it when we die.
