

# Home From Home

Gerry Rafferty

Living way down here and you're way up there  
When I get this way I can't feel you anywhere  
Can't feel you anywhere  
And I don't even care in this home from home.

The people in the room trying to let it go  
But everybody's so wound up they got nothing to show  
Baby you'll never know  
Baby I can't let go in this home from home.

It's so hard to leave you it's hard now everytime  
You know how I need you  
I'm always here inside, I never see the day  
And when the nighttime comes I try and drink the blues away  
Drink the blues away  
Baby I just can't stay in this home from home.
