It's Better This Way

Gerry Rafferty

She's so far away, yeah, she's in America And the water is wide, I love you, my love It's been so long now since we held one another You're still a part of my dreams You're so far away, remember each day It's better this way (yeah)

Let's live in the now, forget about history Now you know we can't live in the past, this is reality Got no control over the things that happen And all the hurt that love can bring You're so far away, remember each day It's better this way (yeah)

I remember all those times We went sailing on the moon And love came down to see us Everywhere, yes everywhere.

Now it all seems so wrong, that we have to be apart But tomorrow we'll walk in the sun, and I'll love you, my love Together we can write a different story That never comes to an end You're so far away, remember each day It's better this way.

You're so far away, remember each day It's better this way (yeah)

You're so far away, remember each day It's better this way (oh darlin' darlin' darlin' yeah)

It's better this way It's better this way Lov'es gonna grow, love's gonna grow, it's better this way
