

## Johnny's Song

Gerry Rafferty

Looking for something, looking for one thing  
Trying to find anything that makes you feel  
Gotta keep goin', don't let it get you down  
Now you've got nothing to lose

You been taking it so hard, taking it on the head  
Don't you know life's as good as being dead  
Gotta keep movin', don't let it get you down  
Now you've got nothing to lose

When everyone around you tells you you're doin' fine  
They're gonna drive you crazy  
So don't close your eyes and swallow all those lies  
Don't believe what you've been told  
'Cause you'll wake up one day knowing  
Nothing they say can satisfy your soul

Gotta keep movin', don't let it bring you down  
Now you've got nothing to lose

When everyone around you tells you you're doin' fine  
They're gonna drive you crazy  
So don't close your eyes and swallow all those lies  
Don't believe what you've been told  
'Cause you'll wake up one day knowing  
Nothing they say can satisfy your soul

Looking for something, looking for one thing  
Trying to find anything that makes you feel  
You gotta keep goin', don't let it get you down  
Now you've got nothing to lose
