Could've Seen It All

Get Cape. Wear Cape. Fly

What if I could run?
What if I could hide away
From all the things I've done?
Would I start it all again?

I could've seen it all
I could've seen it all if I bide my time
I could've seen it all
I could've seen it all but I wanted more

And through all the great things I've seen
I couldn't live with just a dream
But it was more than just a dream

It seems we always fight
Against the things that lead us on
We always take a bite
Of the apple that will seed our fall

And you could see it all
You could see it all
But that's not what you need
I've seen it all, I've seen it all in pathetic fallacies

And although there's great things to see
We get struck in our hypocrisy
And we'll revel in our greed

What if I could dive?
What if I could see the ocean floor?
What if I could fly?
What if I could spread my wings and soar?

I could've seen it all
I could've seen it all but I took my time
I could've seen it all
I could've seen it all but I wanted more

And through all the great things I've seen
Human nature took the best of it for me
Yeah, you took the best for me

I could've seen it all
I could've seen it all
I could've seen it all
...
