

Keep Singing Out

Get Cape. Wear Cape. Fly

Stuck in reflections, it's getting late
Same hopes and fears we can all relate to
Some speak in riddlesm, I speak in rhyme
Making decisions out of time

This tourniquet tries to restrict the flow
Of all the truths that you should know
My acid tongue and your sense of wit
Don't let society restrict

A quick verse for the underrated
Don't let the pressures get you down
Keep singing out, keep singing loud

A quick verse for the underrated
Don't let the pressures get you down
Keep singing out, keep singing loud

Stuck in reflections, it's getting late
Same hopes and fears, we can all relate to
Some speak in riddles, you speak the truth
Even if it's not getting through

A quick verse for the underrated
Don't let the pressures get you down
Keep singing out, keep singing loud

A quick verse for the underrated
Don't let the pressures get you down
Keep singing out, keep singing loud
