Dance With The Dead

Where the band never sleeps The dead waltz through the streets And I'm slowly falling There's a voice in my head Whispering softly it says "Join me, dance, dance, dance with the dead!"

Where the band never sleeps The dead waltz through the streets And I'm slowly falling There's a voice in my head Whispering softly it says "Join me, dance, dance, dance with the dead!"

Whisper me a miracle Or think of something logical It's all too hard to deal And if I die before I wake I pray the Lord my soul to take And if there's none, oh well.

Where the band never sleeps The dead waltz through the streets And I'm slowly falling There's a voice in my head Whispering softly it says "Join me, dance, dance, dance with the dead!"

You're screaming out a melody You're ignorant but still you scream You've given up on hell And if I die before I wake I pray the Lord my soul to take And if there's none, oh well

Where the band never sleeps The dead waltz through the streets And I'm slowly falling There's a voice in my head Whispering softly it says "Join me, dance, dance, dance with the dead!" **Get Scared**
